INTRODUCING

IntelliTouch 60

The Workforce Management Time Clock

Multiple workforce challenges.
A single solution.

The task of workforce management is, let's face it, pretty daunting. And a growing tangle of regulatory obligations must be met: FLSA, ACA, FMLA, PBJ, and more. IntelliTouch 60 with Attendance Enterprise software is the single solution to *improve control, lower costs, and reduce risk.*

- Engage employees
- Reduce compliance risk
- Control labor costs
- Optimize workforce data
- Enhance workplace communication

Unprecedented Control of your Workforce Data.

The IntelliTouch 60 quickly and easily captures all the information you need to remain compliant, transparent and profitable.

Take Control. Manage your workforce data more effectively: compliance obligations, reporting, and analytics.

- Real-time payroll monitoring
- Total hours or dollars, including overtime
- Paid time off
- Payroll integration with your payroll provider

Save Costs. IntelliTouch 60 is priced competitively, and offers a “pay as you go” monthly subscription to help you conserve business capital.

Save Time. Your employees – up to 1000 per clock – can quickly and easily:

- Review punches, hours, schedules, and benefits
- Request time off
- Acknowledge meal and break time
- Attest to daily shift or pay period activity and compliance
- Enter a missing punch
- View historical time cards
- Add a callback punch
- Enter tips

- 1 Big, easily-configurable icons make data input and retrieval fast and simple.
- 2 Supports up to five languages.
- 3 Employees input time off requests and hours worked.
- 4 Employees review and affirm time cards for improved regulatory compliance.

The brilliant 8-inch touch-screen display can be configured with visual prompts in text, icons and in multiple languages.

Audio feedback confirms the desired command has been executed successfully.

Post a video message, a safety demo, and more – rich media capabilities engage and reward your workforce.

Send notifications to supervisors via mobile and email – supporting your goals of improved communication and workforce management performance.

Provide real-time employee notifications of missing punches, required time card approval and exceptions, and comprehensive punch restrictions.

A SUPERIOR USER EXPERIENCE

Optimized Communication. For an Engaged Workforce.

Touch Screen PIN

Barcode Swipe

Magnetic Stripe

Biometric Finger

RIFD Proximity Detection

REGULATORY COMPLIANCE

Reduce Your Exposure. Quickly, Accurately, Transparently.

Wage and hour litigation is skyrocketing, and under Department of Labor requirements, **employers are solely responsible for the burden of compliance.** With IntelliTouch 60, your exposure is *automatically* reduced because it enables employees to review and affirm all workplace activities at the time clock:

- Hours worked
- Breaks
- Meals
- Anything you configure the clock to record.

Attendance Enterprise continually studies workplace regulations – integrating determination, measurement, and reporting processes into our software and hardware solutions – to give you peace of mind that critical compliance requirements can be met.
